## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 18 and 19 are rejected under 35 U.S.C. 102(e) as being anticipated by Inabi et al.

Inabi et al disclose a polarization maintaining fiber comprising: an air cladding (the air that surrounds the fiber ); stress producing regions (23) within the fiber; and an additional cladding region (22).

The structure recited above reads on claims 18 and 19.

Applicant's arguments filed 07/05/2006 with respect to claims 18 and 19 have been fully considered but they are not persuasive.

The breadth of claim 18 is such that air need only to surround the disclosed fiber and its coatings in some unspecified manner. Inaba does not disclose the use of their fiber in a vacuum.

Applicant's arguments, see the response, filed 07/05/2006, with respect to claims 56-66 have been fully considered and are persuasive. The rejection of claims 56-66 has been withdrawn.

Claims 56-66 are allowed.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
